2. Presidential Classroom: Two briefing sessions (21 and 28 February) for Presidential Classroom students have been held in the auditorium attended by approximately 240 students at each session. The briefings have been well received.

3. Speaker at Reserve Meeting: Rear Admiral J. Edward Snyder, Jr., who is the Oceanographer of the Navy, will address the members of the Agency military reserve unit on Monday, 5 March 1973. The meeting will be held in the auditorium and will start at 1745 hours. Admiral Snyder's presentation will be on "Oceanography" and will be similar to the one he recently gave to members of Congress.

Last week members of his staff visited Headquarters to view the facilities for setting up displays that will be used in conjunction with his talk. The exact number of displays to be exhibited is not known, but Admiral Snyder's people will start setting up the displays in the early afternoon on Monday. [REDACTED] Office of Security, and a member of the Agency Naval reserve unit have the responsibility for handling the administrative details in connection with this presentation.

25X1A

From all indications this meeting should be one of the most interesting and informative presentations for this training year. Agency personnel, other than reservists in the Intelligence and Science and Technology Directorates, have been invited to attend. Attached is a flyer concerning [REDACTED] Admiral Snyder's career.
